

# We **BELIEVE** in the opportunity for a successful future for ALL youth in our community. Therefore, we **BELIEVE** in the **DREAM Act**.

Many recent surveys show that the vast majority of voters of both parties support protection for **DREAMers**. The **DREAM Act (SF 1615)** is a bipartisan and commonsense solution to the plight of students who were brought to the United States as children and would provide a way for them to legally work and drive and live without fear of deportation if they:

- Came to the U.S. as a minor child
- Are long-term U.S. residents who pass background/criminal record check
- Have graduated high school or obtained GED/high school equivalency
- Could apply for citizenship (after several years of conditional status) with a requirement of 2 years of college, military service, or multiple years of solid work history
